 Munich, XX.XX.2022, Tilman Pfeiffer, CEO

¹**Sessions:** Total number of sessions per month, over all domains. A session is the duration that a user actively uses the website or app. Once a user is idle for at least 30 minutes, by default each subsequent activity is assigned to a new session. If a user leaves the site and returns within 30 minutes, no new session is recorded but the original session continues.

²**CPM:** Thousand contact price, price per 1,000 sessions across all domains.

All prices are excl. VAT if applicable.
